

DEDICATED MANAGED SERVER

WebServer.com.my's pre-configured dedicated servers can be used as a web server, mail server, database server, application server, e-business solution, corporate Intranet, DNS, reseller virtual hosting, live-streaming broadcast machine or anything that requires greater reliability, speed and a higher level of security.

WebServer.com.my's state-of-the-art Data Centers provides unparalleled high-performance, high-availability, and high-security to all of our dedicated server customers. Client will be given the option to host their servers on either AIMS Data Center, Jaring, TMNet, NTT or at our very own carrier neutral backbone data center.
