

SmarterMail

Exchange-Level Mail Server Software

Exchange-level Mail Server Software

SmarterMail delivers Microsoft Exchange-level email server software and instant messaging for a fraction of the cost of Exchange. With lower hardware requirements, superior stability and reduced maintenance costs, SmarterMail has significantly lower TCO and is the best-in-class Microsoft Exchange alternative for businesses, hosting companies and ISPs.

SmarterTrack

Customer Service and Help Desk Software

Customer Service and Help Desk Software

SmarterTrack is a powerful communications platform that acts as an online help desk for initiating, tracking, managing and reporting on a number of different communication channels. Whether it is a ticket submission via email or from the online portal, a live chat, a community post, comments made on a knowledge base article or more, SmarterTrack provides a centralized outlet for all communication channels and is an ideal solution for building your online community.
